**DID YOU HEAR.....**

A senior citizen in Florida bought a brand new Mercedes convertible.

He took off down the road, flooring it to 80 mph and enjoying the wind blowing through what little hair he had left on his head. "This is great," he thought as he roared down I-75. He pushed the pedal to the metal even more. Then he looked in his rear view mirror and saw a highway patrol trooper behind him, blue light flashing and siren blaring. "I can get away from him with no problem." thought the man and he tromped it some more and flew down the road at over

100 mph then 110 - 120 mph. Then he thought, "What am I doing? I'm too old for this kind of thing." He pulled over to the side of the road and waited for the trooper to catch up with him. The trooper pulled in behind the Mercedes and walked up to the man. "Sir," he said, looking at his watch. "My shift ends in 30 minutes and today is Friday. If you can give me a reason why you were speeding that I've never heard before, I'll let you go." The man looked at the trooper and said, "Years ago my wife ran off with a Florida State Trooper and I thought you were bringing her back." The trooper replied, "Sir, you have a nice day."

Two factory workers were talking:

"I think I'll take some time off from work." said the man.

"How do you think you'll do that?" asked the blond.

He proceeded to show her...by climbing up to the rafters, and hanging upside down.

The boss walked in, saw the worker hanging from the ceiling, and asked him what on earth he was doing? "I'm a light bulb." answered the man.

"I think you need some time off," said the boss.

So the man jumped down and walked out of the factory.

The blonde began walking out too. The boss asked her where did she think she was going?

The blonde answered, "Home, I can't work in the dark."
